**Subject:** updates to text of GI section for PCB evidence manuscript  
**Attachments:** PCB Noncancer Evidence Map Working Draft\_GI update.docx

Hi Geniece, Laura and Evan,

I've completed edits for the GI section of the PCB evidence map manuscript (attached) that reflect the updated tox inventory. I included two questions (in my comments) about removing citations as per the guidance on citations you provided for the endocrine section. Evan, I hope you don't mind but I included minor updates to account for the 3 studies added to the epi inventory. If you all agree with the edits, I will make the changes in the manuscript draft on the PCB assessment Teams site.

Thank you,

Joanne
